India is the largest democracy in the world. Like any growing democracy, if India has to change, the youth needs to become increasingly committed to politics. We need the youth to take a stance in the politics of India and to be willing to embrace public life with a view to strengthen the democratic fabric of our nation.

Chhatra Sansad is the first ever unique youth movement that provides the youth a platform to become an element of change. Chhatra Sansad is a unique initiative taken up in the year 2015. It is to encourage youth to commit to politics and embrace public life with the aim of strengthening the democratic fabric of our nation. Thus, serving as an intermediate platform, the Youth Parliament would assist to establish a movement of thoughts and ideas amongst the youth. This we hope would culminate in fairer, efficient youth driven politics. This will in turn result in a healthy democratic system.

Youth is almost synonymous with vibrance and new ideas. today's Youth is opiniated and well informed politics can be guided on a path of developent and progress by the adoption of modern intentions and purposes and there can be better way to do this than to involve youth in politics. So it's youth of today that can lead to a better tomorrow

Advocating for youth mainstreaming can allow young people to change the world by creating new awareness, opportunities, policies, systems and cultures that foster youth engagement. In political parties, youth mainstreaming could allow for children and youth to affect democratic representation even in parties that would deny them the right to vote or otherwise become engaged.
