DELHI > LUCKNOW > AYODHYA > VARANASI

Chhatra Sansad, an initiative of Zero Hour Foundation is the first ever unique movement that provides the youth a platform to become an element of change founded by Kunal Sharma in 2015.

We at Chhatra Sansad have a vision to create ethical, spirited and competent public leadership in the country, which will shape our policies. We aim to make our democracy more vibrant and bridge the chasm between the way we are being governed today and the way we actually want to be governed.

Over the past 6 years, we have been able to reach out to more than 25000 students by making them interact with almost 250 renowned guest speakers. Apart from our 5 projects that run continuously, we also have initiated 300+ campaigns and activities that were inspired by events relevant to that period, as well as some comprehensive and meticulously designed perennial campaigns aimed primarily at the Youth of our Society as in conjunction with the overall betterment of our Society as well.

InternNation Leadership 2022

Chhatra Sansad's InternNation is an immersive hands-on learning program for the youth of today who wish to one day be stalwarts in their own right and have the will to change the very foundation of our Society.

Through InternNation, Chhatra Sansad provides the delegates with a chance to meet and interact with Visionaries from the Public and Private Sector as well as the Government so that they can learn from the very best and inspire their fellow Indians.

We provide first-hand experience to the various governance models, opportunity to interact with leaders behind the scene and learn how they do what they do.

In the month of January, Chhatra Sansad hosted an Intern Nation Leadership Program in Delhi, Lucknow, Ayodhya, and Varanasi. It was a 10 day tour where the participants got a chance to imbibe the same values that drive today's leaders and Visionaries.

GOVERNING COUNCIL

When you say out loud "Politics" out loud, it evokes different reactions from different people. Some think it is a cunning man's game. The word 'incompetence' also come to mind. Even others would say it is an exercise in futility .But you would be hard pressed to find someone who has anything positive to say about Politics. It would be even harder for you to find a Young Indian under the age of 25 who is actively willing to participate in our Political System, the biggest Democracy in the world.

And this is why Chhatra Sansad was started, with the most basic of objectives, to encourage the Youth of Today and Tomorrow to at the very least, take an active interest in our Political System and increase the number of Young Indians in our Political System. In the immortal words of Gandhi, "be the change you wish to see", I took the first step towards the change I wished to see and began Chhatra Sansad. I want to make Young Men and Women of India realise that they too can be in positions of power, that they too can dream of a better India and that they and only they are responsible for it.

And the best way to become a Leader, is to learn from a Leader. Which is where the InternNation Leadership Tour excels at. Rather, that is the entire aim of the campaign, to give a chance to aspiring leaders to meet their role models and learn how the affect change in the world's largest democracy.

Youth is synonymous with vibrancy and new ideas. Today's Youth is opinionated, educated and well informed. Given the correct direction and aim, the Youth can affect our socio-political scenario and implement the change we wish to see in our Society and Country. It is the youth that we need to provide a platform for so that they can express their views and opinions. The need of the hour is for us to have educated and Ethical Leaders. And not just Political Leaders, but Leaders in Education, Healthcare, Infrastructure and other such important sectors that need immediate upgradation and improvement. We need to realise the potential of the Youth of Today such that they too have a chance to build our Country and Society. Youth is synonymous with vibrancy and new ideas. LEADERSHIP TOUR

MUMBAI > GOA > BANGALORE

AN INITIATIVE BY ZERO HOUR FOUNDATION

MUMBAI > GOA > BANGALORE

Chhatra Sansad, an initiative of Zero Hour Foundation, is the first ever unique movement that provides the youth a platform to become an element of change.

We at Chhatra Sansad have a vision to create ethical, spirited and competent public leadership in the country, which will shape our policies. We aim to make our democracy more vibrant and bridge the chasm between the way we are being governed today and the way we actually want to be governed.

Chhatra Sansad is a Gujarat-based organization started in Vadodara, operating in every major city across the state. What started as an idea, we have now spread across Maharashtra, Madhya Pradesh, Delhi, Karnataka, and Uttar Pradesh. Chhatra Sansad was founded by Adv Kunal Sharma in 2015 with the aim of encouraging the youth to commit to leadership and embrace public life with the aim of strengthening the democratic fabric of our nation. This, we hope, would culminate in fairer, efficient youth-driven nation-building.

Chhatra Sansad aims to ignite the spirit of student politics in the youth, raising their sensitivity, awareness, involvement, responsiveness, access and say, in social, political, economic and democratic processes of our Society and Nation. This will in turn result in a healthy democratic system that will produce competent public leaders and policy makers from across the Socio-Political and Economic pyramid of our Society.
