WHY SCHOOL OF LEADERSHIP?

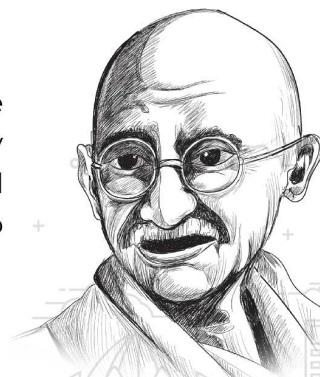

It's important for students to experience leadership opportunities during their schooling, to learn the art of building relationships within teams, defining identities, and achieving tasks effectively. It also provides an opportunity to learn to identify and display effective communication and interpersonal skills.

So, to bring in more promising leaders, Chhatra Sansad established the School of Leadership, an endeavour to establish leaders from every nook and corner of the country. Leaders that inspire, encourage, and motivate are needed. We need leaders who will become role models for others to look up to.

The traditional education system ignores holistic personality development and instead concentrates solely on academics. Through this programme, we hope to supplement the educational system by instilling in pupils the required skills and values that will enable them to stand out wherever they go in life.

Chhatra Sansad's School of Leadership aspires to develop a cadre of young professionals who are emotionally and technically prepared to deal with the difficulties posed by the modern global problems and to become leaders by working probatively to address those problems.

HOW WILL IT BENEFIT YOU?

Chhatra Sansad's School of Leadership wants to develop the overall personality of the future leaders. The following characteristics will be highlighted in the course:

1. **Personality Development**

Aside from that, we will teach them fundamental life skills that are essential for any person in this day and age. Our programme strives to increase participants' autonomy so that they may take productive action on their own initiative.
