INTERNNATION

MISSION LIFTOFF

AN EXCLUSIVE ISRO LAUNCH TOUR BY CHHATRA SANSAD

WHERE STUDENTS DON'T JUST LEARN SCIENCE—THEY LIVE IT.

SOME MOMENTS CHANGE LIVES
THIS TOUR PROMISES MANY.

What if your students could witness the exact second history is written in **Fire and Steel?**

What if their textbooks came alive not through pictures but through a **thunderous roar that echoes across the sky?**

What if, one morning, they weren't just students...

But dreamers, thinkers, and future space leaders, standing shoulder-to-shoulder with India's finest minds?

THE OPPORTUNITY
OF A GENERATION

Chhatra Sansad proudly unveils InternNation's Mission LiftOff – a rare and priceless opportunity for students to:

- Experience LIVE rocket launches at Sriharikota
- Stand just kilometers away as satellites pierce the sky
- Engage with space scientists, mission directors, and ISRO heroes
- Walk the grounds where Chandrayaan touched the Moon, where Gaganyaan prepares to carry Indians to space

WHAT STUDENTS
WILL TAKE BACK

- Tears in their eyes. Goosebumps on their skin. Pride in their heart.
- The realisation that they belong to a country that sends rockets into space
- First-hand experience of how dreams backed by science turn into national victories
- Lifelong clarity on careers in science, leadership, engineering, innovation
- A story they'll tell for the rest of their lives: "I was there when India launched a rocket."

WHY SCHOOLS, EDUCATORS & FAMILIES TRUST THIS TOUR

- Curated by **Chhatra Sansad,** India's foremost youth leadership platform
- Secure, academically structured, and fully managed by professionals
- Covered under a government-supported civic learning and space literacy mission
- Designed to meet **NEP 2020** goals of experiential education and **STEM** exposure

YOU'RE NOT JUST BOOKING A TOUR.
YOU'RE LAUNCHING A LIFE.

Join the journey where classrooms end... and the cosmos begins.

Because when rockets fly, so do dreams.
